About Us

PT Solusi Maknah Indonesia (SMI) is a forward-looking Indonesian company specializing in **renewable energy, environmental solutions, and sustainable industrial development.**

Established in 2025 and headquartered in Jakarta, SMI is built on a strong foundation of integrated capabilities, delivering end-to-end solutions across energy production, waste management, and industrial ecosystem development.

SMI is a joint venture between PT Solusi Energindo Inovasi and PT Maknah Group Indonesia, combining complementary expertise and resources to accelerate the development of impactful and scalable solutions.

With Indonesia entering a critical phase of **energy transition and industrial expansion**, SMI positions itself as a **strategic partner** for government institutions, investors, and private sector stakeholders seeking impactful, scalable, and sustainable projects.

We don't just develop projects.

We create **integrated systems that drive long-term value.**

Vision & Mission

Vision

To become a leading integrated solutions provider in renewable energy and sustainable industrial development in Indonesia and Southeast Asia.

Mission

- Accelerate the adoption of renewable energy through innovative and scalable solutions
- Transform waste into valuable energy and resources
- Develop environmentally responsible industrial zones
- Create long-term economic value for communities and partners
- Contribute actively to national sustainability and decarbonization goals

Annizza Ghazsani
Account Manager

Core Business Areas

SMI operates across multiple high-impact sectors:

Renewable Energy

- Biomass power plants (3rd generation)
- Solar power (PLTS)
- Micro-hydro power systems
- Bio-CNG and Sustainable Aviation Fuel (SAF)

Waste & Environmental Solutions

- Integrated waste management (Waste-to-Energy)
- Hazardous and non-hazardous waste treatment
- Wastewater treatment systems
- Organic waste processing and compost production

Industrial Development

- Development of eco-industrial parks
- Sustainable industrial estate management
- Infrastructure planning and development

Agriculture & Biomass Supply Chain

- Energy plantation development
- Forestry and biomass resource management

Trading & Logistics

- Agricultural commodities trading
- Warehousing and storage

Consulting Services

- Investment feasibility studies
- Strategic and operational management consulting

Integrated Capabilities (End-to-End Solutions)

SMI's competitive advantage lies in its ability to deliver **fully integrated solutions**, including:

**Feedstock Sourcing
(biomass & waste)**

**Energy Conversion
Technologies**

**Infrastructure
Development**

**Operations &
Maintenance**

**Industrial Ecosystem
Integration**

This approach ensures **efficiency, cost optimization, and long-term sustainability** for every project.

Current Project

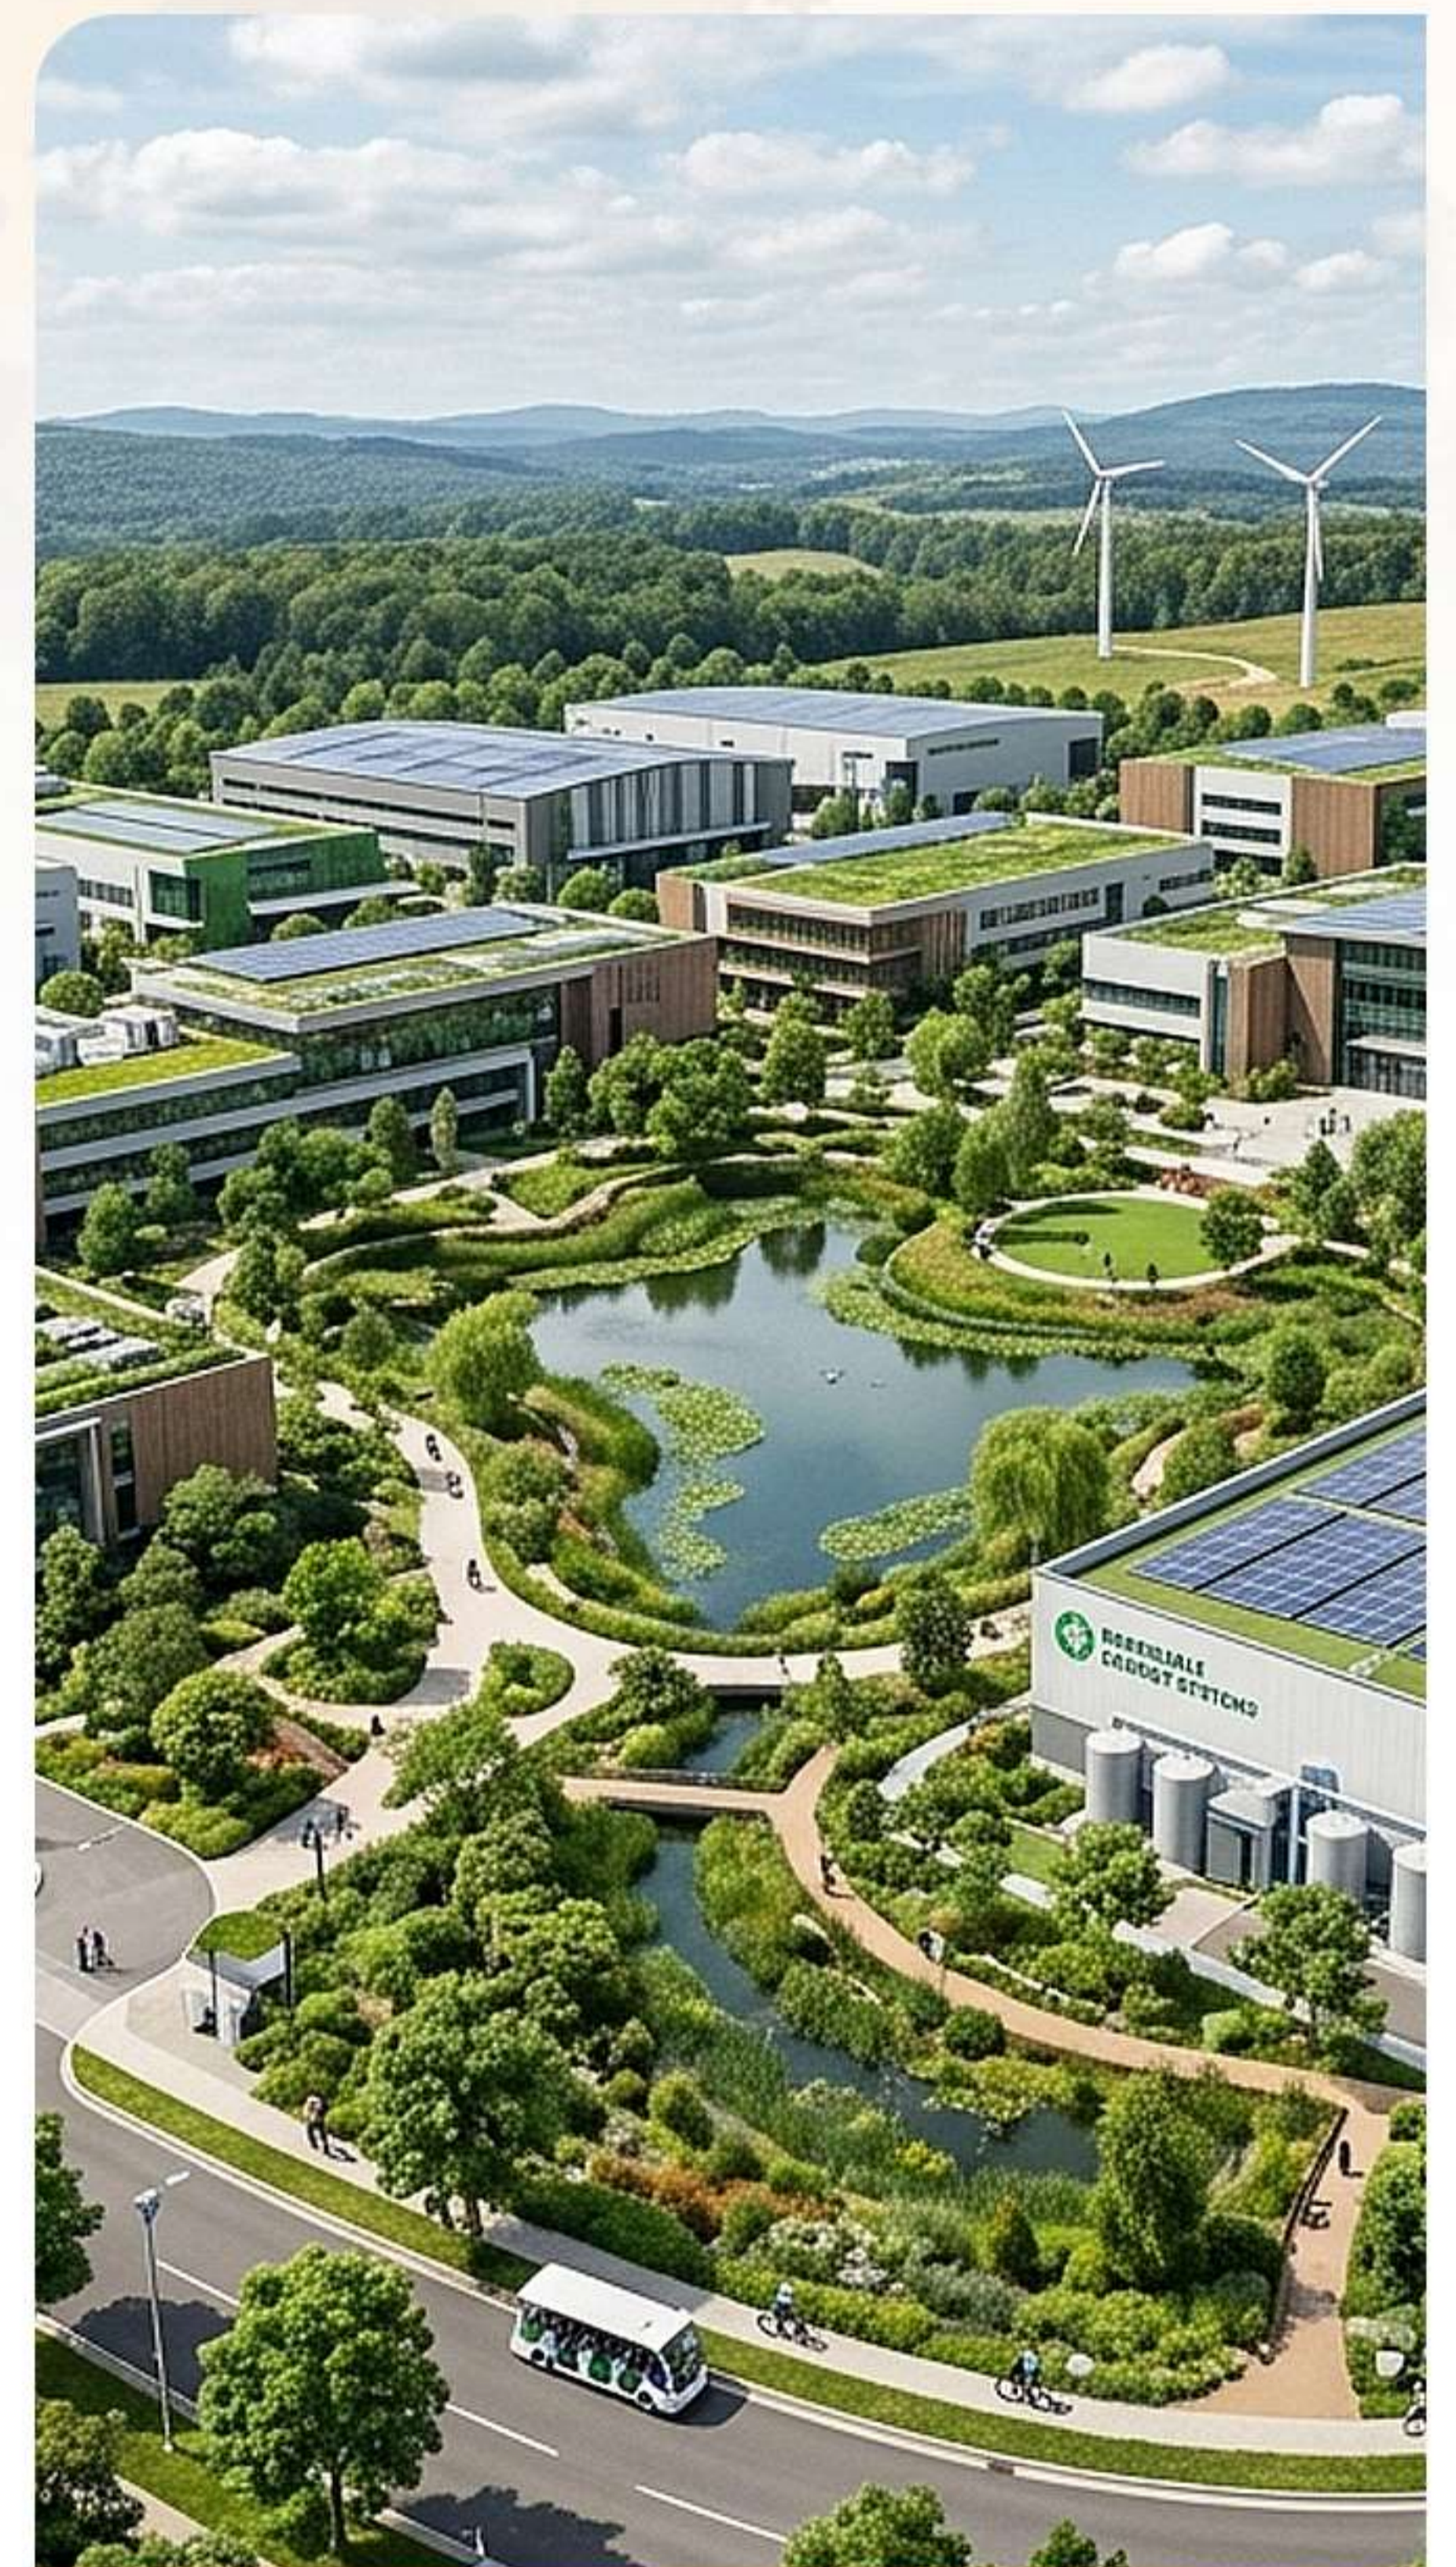

SMI is actively developing strategic partnerships with regional governments, including Lampung province, focusing on:

**Renewable Energy
Development**

**Energy Plantation
Generation**

**Green Industrial
Estate Development**

Featured projects also span the tourism sector and commodity industrialization.

Our Commitment

SMI is committed to delivering projects that are:

**Environmentally
responsible**

**Technically
reliable**

**Economically
viable**

**Socially
impactful**

All initiatives are executed in compliance with national regulations and international best practices, ensuring long-term value for stakeholders.

Why Partner with Us

Partnering with PT Solusi Maknah Indonesia means gaining access to:

- Integrated energy and industrial solutions under one platform
- High-growth opportunities in Indonesia's renewable energy sector
- Strong alignment with government sustainability programs
- Flexible partnership models (JV, PPP, investment, EPC collaboration)
- Local expertise with scalable execution capability

We don't just build projects, we build **sustainable ecosystems and long-term partnerships.**

PT Solusi Maknah Indonesia invites:

Government
Institutions

Private
Investors

Energy
Developers

Industrial
Partners

Technology
Providers

to collaborate in shaping Indonesia's future through sustainable energy and industrial innovation. Together, we can unlock new opportunities, drive economic growth, and create lasting environmental impact.

At SMI, we believe that the future of energy and industry lies in **integration, sustainability, and collaboration.**

We are ready to partner, invest, and grow, together.
